

## A Clean Man

Outside cleanliness is less than half the battle. A man may scrub himself a dozen times a day, and still be unclean. Good health means cleanliness not only outside, but inside. It means a clean stomach, clean bowels, clean blood, a clean liver, and new, clean, healthy tissues. The man who is clean in this way will look it and act it. He will work with energy and think clean, clear, healthy thoughts.

He will never be troubled with liver, lung, stomach or blood disorders. Dyspepsia and indigestion originate in unclean stomachs. Blood diseases are found where there is unclean blood. Consumption and bronchitis mean unclean lungs.

### Dr. Pierce's Golden Medical Discovery

prevents these diseases. It makes a man's insides clean and healthy. It cleans the digestive organs, makes pure, clean blood, and clean, healthy flesh.

It restores tone to the nervous system, and cures nervous exhaustion and prostration. It contains no alcohol or habit-forming drugs. Constipation is the most unclean uncleanliness. Dr. Pierce's Pleasant Pellets cure it. They never gripe. Easy to take as candy.

The party who went to Florida ten days ago have all returned except E. E. Jones and son. Frank Lamson says the boys run barefooted, and the roses are in bloom, the temperature was "just about right," and all was just as represented, but it was the farthest he ever was away from good old Plymouth, and though he knew there was snow here, nothing could induce him to stay longer. Welcome back, dear friends. You may stay in Marshall county if your taxes are paid.

Mr. and Mrs. Robert Beagles of Tyner visited a part of last week with Mrs. S. Stanley on east Laporte street. While here they figured up the combined ages of these three old people, and found that the sum was 254, an average of almost 85 years. cold of Marshall county to the warm sunshine of Florida is certain. And while we do not envy these worthy people their good time, we cannot help but wish others might enjoy a like experience.

Miss Emma Holm visited since Thanksgiving with relatives in this city, returning to her school work Sunday evening. Miss Holm graduated with the class of 1898, and has made teaching her profession. She is much pleased with her present surroundings, as Evanston, Illinois is a suburb of Chicago, and nearly the entire population are business men of the great city. They wish to be in a quiet place, removed from business cares and confusion, and Evanston is the ideal place for such to live in. This ensures a class of people who are of a good sort, and Miss Holm says the work is a delight instead of mere drudgery. Her many friends here are pleased that she is so well situated, as she is one of the real brilliant girls that have gone forth from us to do battle in the world.
